

7TH GRADE ELECTIVE REQUEST CHEAT SHEET 2024-2025

Course Name	Course #'s	Course Description
Band A & B	700712 AND 700722	Band 7 students continue learning and developing instrumental musical skills. Students will explore a variety of music genres and styles and perform at three concerts throughout the year.
Choir A & B	700812 AND 700822	Choir 7 students continue to learn about singing and music literacy in a group setting. There are three evening performances per year.
Study Hall A (Fall Semester)	700511	Study Hall is an opportunity for students to complete their academic work during the school day. Study Hall A happens first semester (August - January). Students may take Study Hall all year or for just one semester.
Study Hall B (Spring Semester)	700512	Study Hall is an opportunity for students to complete their academic work during the school day. Study Hall B happens second semester (January - June). Students may take Study Hall all year or for just one semester.
Foods & Nutrition	7007	In this class we will learn about nutrition, portion control and how to incorporate this into everyday living. We will spend time in the kitchens learning how to prepare healthy snacks for you to eat.
Fitness & Recreation	7011	Students will be given the opportunity to try many types of fitness activities. Also covered in this class will be the areas of nutrition, managing stress, personal fitness plans and goal setting.
STEM	7008	This hands-on inquiry based course includes concepts and skills from Science, Technology, Engineering and Math. Students solve problems while utilizing engineering skills to design and construction solutions.

Drama	7013	Drama 7 is an introduction to fundamental acting and technical skills. Off-stage, students explore sound effects, makeup, costuming, and lighting. On stage, students learn movement and characterization skills.
Media Arts	7006	In Media Arts students will become proficient using Photoshop to edit photographs and create advertisements. They will learn about the importance of logos, branding, marketing and sales.
Drawing & Painting	7025	In this course, students will explore different drawing and painting media to include graphite, colored pencil, charcoal, pastel, watercolor and acrylic paints.
Ceramics & Sculpture	7026	Students will spend the first half of the course exploring different methods of making sculpture, to include clay, plaster, wood, and found objects. During the second half of the course students will create work using the media and subject matter of their choice.
Law & Order	7023	In this hands-on activity-based class, students will have the opportunity to act as witness, judge, attorney and jury as they judge cases constructed around real and fictitious events.
