Why is the word REQUEST important?

It is important to remember that these electives are requests and are not guaranteed.

An elective may not work in your schedule for several reasons, the biggest one being that you may qualify for an academic support course that has to be in place of your electives.

What if I need a support class?

If you are a student who meets the criteria for an academic support course, these may be scheduled during your elective hour. This will mean you will not have an elective wheel class and/or Choir or Band.

We still need you to make your elective request so that it is on file depending on where you are scheduled.

Support courses include any reading, math, or IEP goal support!
