My child learns best in a _____ environment, with a teaching style that is _____.

(Please describe in further detail if necessary.)

My child may have needs in the area(s) of:

I understand this request is just one of many variables that are considered in the grouping/assignment of students for instructional purposes. Other factors may include work habits, ability, special individual needs, group dynamics and the balance of boys and girls.

Fluctuation in enrollment may create the need for adding to or reducing a classroom. For these reasons, I understand that the total educational program must have the highest priority, and the final determination of class assignments is the responsibility of the building administrator.
